First of all, I want to say that everybody has ambitions and all must achieve it for the best life. I want to work on my favorite job and have enough money for good life.

In my opinion, it's absolutely normally to want more money. I know that if I have enough money, I will can do many important things for me and another people. For example, I will can organize a trip to sea for my mother, buy a new car for father and just use money for my own wishes.

I want to have big opportunities and will try do everything for my ~~at~~ goals. But I am sure that I won't can do all this alone and I will need support, parents and friends will help me. (~~In my future~~ ~~I will~~) I hope that my dreams will come true in future. Unfortunately I can't doing it now, because I study in school. But I know that everything in our life is possible.
